### PERSONAL PROFILE:

I am a calm and confident Centre Back who likes to read the game and stop danger before it even happens. I don't just chase the ball – I try to be in the right position early and help my team stay organised. I like to talk a lot on the field and help my teammates, making sure our defence stays focused. When we win the ball, I try to pass it cleanly to the midfield and help start the attack.

I see myself as a leader in the team, like a coach on the field. I stay calm even when the game gets tough and I always try to encourage my teammates. Right now, I'm working hard to improve my weak foot so I can use both feet confidently. I'm also training my heading so I can score goals from corners and free kicks. I want to play faster and move the ball quicker to surprise the other team.

I train with discipline and always give my best. My dream is to keep improving every day and one day play professional football at the highest level.
